Keep your bar well-stocked with plenty of cold beer, soda, and water with this Avantco JBC-25S commercial bottle cooler! This unit boasts 6 cu. ft. of interior storage space, enough to hold approximately 5 cases of 12 oz. bottles or 7 cases of 12 oz. cans. Its sliding lid opens smoothly and provides easy access to the interior, which features a painted aluminum liner for easy cleaning. A type 430 stainless steel exterior gives the cooler a sleek appearance in any bar setup, while a built in bottle opener and cap catcher makes it quick and easy to get customers their drinks.

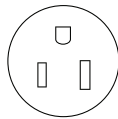

This bottle cooler also boasts an efficient forced-air refrigeration system to maintain temperatures between 32 and 41 degrees Fahrenheit, and foamed in place polyurethane insulation that improves temperature retention and efficiency. This unit requires a 115V electrical connection and includes a cord with NEMA 5-15P plug.

Failure to contact Avantco Refrigeration prior to obtaining equipment service may void your warranty.

Avantco Refrigeration will not warrant coverage for component failure or other damages that arise under the following conditions:

- Failure to install and/or use unit within proper operating conditions specified by Avantco Refrigeration
- Failure to properly maintain the unit. This includes, but is not limited to, basic preventative maintenance such as cleaning the condenser coil.
- Installation in a non-commercial or residential application
- Products sold or used outside of the United States

Additionally, no claims can be made against this warranty for spoilage of product, loss of sales or profits, or any other consequential damages.

Normal wear type parts, such as light bulbs and gaskets, are not included in warranty coverage.
