FOR EVEN GRILLING WHILE SAVING TIME & LABOR**

GARDE

COMPACT, HEAVY-DUTY CONSTRUCTION

The die-cast aluminum body offers a durable, heavy-duty construction, designed for high-volume use. This makes it ideal for cafes, pubs, sandwich shops, and other operations producing large quantities of house-made patties. The unit's compact, ergonomic design makes this ideal for storage and saving essential counter space.

FAST & EASY OPERATION

COLOR-CODED MOLDS

To provide versatility in your kitchen, this press includes 2 different molds, one designed for $\frac{1}{4}$ lb. and the other designed for $\frac{1}{2}$ lb. of meat. Because they're color-coded silver and green, respectively, the molds can easily be distinguished so that you can immediately see which mold accommodates what amount of meat or other patty ingredients.
