

TME Personnel Strip Door

from TMI, LLC

A Low Cost, High Quality Solution for Managing Environments

- Separate temperatures between rooms to ensure comfortable working conditions for employees and customers
- Cost effective solution to streamline workflow in restaurants and other areas with high personnel traffic
- The "PSD" can pay for itself in as little as three months due to increased savings on energy bills

Easy to Install hardware mounts in a "snap" and crystal clear PVC strips effectively separate temperatures in areas where customer and employee comfort is a concern

Features:

- Designed for personnel doors up to 40" wide
- Installation time less than 10 minutes
- Ideal for use in restaurant settings with 100% food-grade approved, non-corrosive, high-impact Polypropylene hardware system that leaves no metal hardware exposed
- Low profile design completely eliminates the penetration of dirt and grease, making the "PSD" an extremely sanitary door
- 8" wide X .040" thick standard clear PVC strips (6 pack replacements strips available)
