

QUICK CHANGE BATTERY

Our lithium ion powered products use one battery for multiple cleaners. Fade-Free Battery Technology delivers consistent power for the entire life of the battery.

ANTI-MICROBIAL TPE BRUSHES

Anti-microbial TPE scrub brushes are soft on floors, but work well to remove stubborn, stuck on food particles. Dual color scrub brush with brush wear technology indicates brushes need replacing. Brush design allows for easy rinsing.

DUAL TANK TECHNOLOGY

Water housed separately - clean with clean water. Tinted tanks limit the view of dirty water to patrons. 1.5 qt. capacity each

ADDITIONAL FEATURES

DUAL ACTION FINGERTIP CONTROL

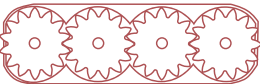

Use as a scrub only or scrub with suction. Our Dual Action Fingertip Control allows you to move effortlessly between washing and drying modes.

SPIN & SCRUB TECHNOLOGY

Wash and scrub with solution, suction up dirty water and spills with the touch of a button.

ADDITIONAL ACCESSORIES

**AK51030:**  
Tile & Grout brush for HydroVac

**AK51032:**  
Non-stick brush for HydroVac - 3 pack
