Reliable Even-Cooking Griddle Provides Outstanding Performance for Breakfast, Lunch or Dinner Menu Items

This series of griddles features individually controlled burners every 12 inches to maintain consistent temperatures under heavy load conditions. Available in three models. The manual Griddle (MG) puts temperature control in the hands of the operator. The Standard Griddle (SG) and Chrome Griddle (SGC) models feature thermostats with exclusive plate temperature sensors which respond to temperature fluctuations quickly. Add a highly chrome plated finish (SGC) for superior cleaning and minimum heat radiation with no flavor transfer. Invest in the Anets GoldenGrill Gas Griddles and save on labor and energy costs.

STANDARD FEATURES

- High nickel content 3/4" precision ground hot rolled steel plate(MG,SG)
- Highly polished and plated with a hard chrome finish (SGC)
- One burner per foot:
40,000 BTUH per burner
- Snap action thermostats
- Spark ignitor

SG24X48 shown on optional stainless steel stand with undershelf
