Power Type	Liquid Propane
Total BTU	150000 BTU
Type	Griddles Stoves
Usage	Grills Without Casters

## Notes & Details

Deep fry a turkey on one burner and steam vegetables on the other with this versatile Backyard Pro 32" double burner outdoor range! Each liquid propane burner boasts 75,000 BTU of cooking power and independent control valves, so whether you're steaming clams, boiling corn-on-the-cob, or frying a turkey, you'll be able to achieve the results you want every time. Convenient wind guards on the back and sides of the unit are included to protect the food and the burner flame from strong wind. These wind guards fit around stock pots and other cookware, rather than the entire griddle, to protect the contents during cooking. Two clip-on side shelves provide space for your utensils and serving platters.

With a generous 32" x 16" cooking surface, you'll have plenty of room to hold stockpots with a bottom diameter of up to 16". This range also includes a 32" x 16" stainless steel griddle plate for even more cooking options. Made of 1/7" thick stainless steel, this plate features a grease trough and handles for simple use and maintenance, while splashguards on the back and sides to prevent splashing on open flames and the surrounding environment. To prevent warping, use this griddle with the first third of the temperature control, the remaining two thirds are best used for boiling and frying applications. Whether you're grilling sausage, burgers, hot dogs, or even eggs, pancakes, and other breakfast foods, this griddle plate is sure to give your range an added level of versatility.

This portable range is a perfect addition to any tailgating party, camping trip, or backyard BBQ. It provides you with the cooking power of a range combined with the convenience of portability. You can easily transport this range to the event site and use the high performance 10 PSI adjustable liquid propane regulator so that you can safely hook up your liquid propane tank. A sturdy, steel frame ensures this portable range is built to last and can easily withstand years of use.
