

304 SERIES

• Type 1A Step Ladder

300 lbs. capacity

• Solid Aluminum Rivet Construction

Solid aluminum rivet construction at critical stress points is stronger than tubular steel rivets and results in a longer service life for your ladder.

• Bauer Boot Shoes

Our innovative, non-marring, Boot Shoes provide complete side rail protection and greater surface contact for increased slip resistance over competitive models.

• Pinch-Resistant Internal Spreaders

Heavy duty, pinch-resistant spreaders are mounted internally to prevent damage during transport.

• Formed, Zinc-plated Steel Supports

Formed, zinc-plated steel supports under top and bottom steps and cross braces for added rigidity.

• Molded Top Cap

The unique design in our Molded Top Cap holds tools, fasteners and other small parts for easy access and provides strong impact resistance.

• More Gentle Climbing Angle

A 20° climbing angle reduces worker fatigue and is more comfortable to climb than our competition's ladder.

FIBERMARK LOGO RAIL IMPRINTING

Get your company's logo imprinted into the fiberglass side rail. The logo can not be removed- this is a proven method of deterring theft and increasing your company's exposure.

ASSET MANAGEMENT TAGS

Serial number ID systems to effectively track inspections and repairs as well as the length of time a ladder has been in service.

SUPERIOR SERVICE!

Bauer manufactures ladders strictly for professional users, not the home centers! We stock what you need and ship quick. Standard lead times are 2-3 days, not weeks! And almost as important we typically ship damage free! Bauer over-packages our shipments, decreasing the likelihood of aggravating freight claims.
