

Mop Buckets, Wringers & Combos

Lots of choices, lots of features!

Unibody® ~ The Industry-Leading, One-Piece Design Unibody®

Also available in Bronze.

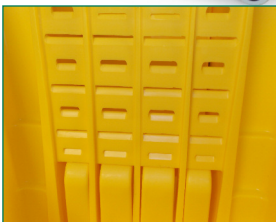

The 35 quart **Unibody®** is the most efficient side-press wringing system available.

The one-piece design delivers a positive transfer of force, removing more water per stroke.

A departure from the limitations of traditional designs, the Unibody® offers labor savings, safety and chemical economy advantages. But this is just where the story begins.

Thoroughly designed from the floor up, the **Unibody®** Mopping System raises the bar for cleaning maneuverability, ergonomics, noise reduction and labor savings.

Water evacuation from uniquely designed wringer vents eliminate the possibility of spitting or leakage.

Floor drain ledge with convenient lift handle allows easy emptying of the bucket into a floor drain basin.

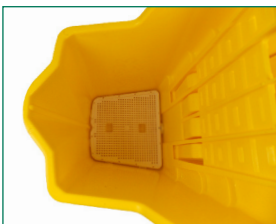

Built-in handle provides stability and comfort when lifting. No metal bails to pinch, cut hands or to corrode.

Convenient bracket holds wet floor sign for easy access and to encourage use. Shown with a Continental® Floor Sign.

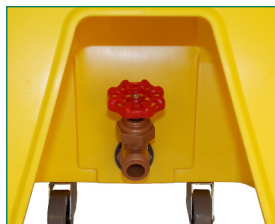

The large wide-mouth pour spout directs the water flow, controlling unnecessary splashes and spills.

Tall bucket design tapers to narrower bottom with sediment screen to trap debris. Bucket floor is sloped toward the screen and drain faucet.

Sediment grid traps debris at the dirt-well, which is designed into the bucket floor. This keeps the solution cleaner, longer.

Faucet-style drain is incorporated into the lower back of bucket, eliminating the need to lift the bucket.

Wringer area is designed to hold a mop stick upright, preventing it from falling over or out of the bucket.

Molded-in tool holder holds putty knife or scraper for convenient access.

Bucket/Wringer Combos

Buckets and wringers feature our Derma-Tek® Finish. This smooth surface, nonporous finish is tough, durable and seamless. It maintains a professional appearance because it's easy to clean and keep clean. Plus, Derma-Tek® will not absorb chemicals, liquids or odors and will not rust, dent, chip or corrode.

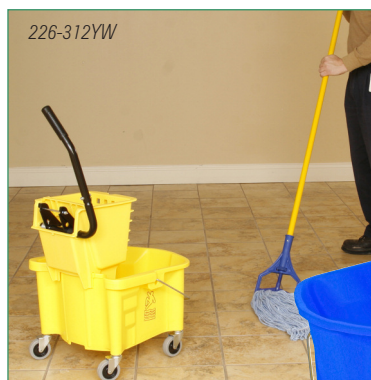

The 35 quart **Institutional Wringer Combo** comes with 3" non-marking casters for improved maneuverability (335-39) or without casters (335-9) for areas where safety is a concern.
