G-SERIES
2-Section Refrigerator Reach-In
Self-Contained Solid Door(s)

STANDARD PRODUCT FEATURES

• High Performance, Energy Efficient Refrigeration System
• Reliable Microprocessor Control With LED Temperature Display
• Evaporator Coil Outside Food Zone Provides More Usable Space
• Load-Sure Guard Prevents Problems From Improper Loading
• Durable All Metal Construction
• Stainless Steel Front & Doors, Anodized Aluminum Sides & Interior
• Full or Half Height Door Models with a Variety of Hinging Configurations
• Long Life EZ Clean Door Gaskets
• Three (3) Epoxy Coated Shelves Per Section (factory installed)
• Easy to Maintain Front Facing Condenser Coil
• 6” High Locking Casters
• Guaranteed for Life Door Handles & Hinges
• 3-Year Parts & Labor Warranty
• 2-Years Additional Compressor Parts Warranty

ACCESSORIES & OPTIONS (*field installed)

◘ Tray Slides for 18” x 26” Sheet Pans*
◘ Tray Slides for 12” x 20” Food Pans*
◘ Tray Slides for 14” x 18” Sheet Pans*
◘ Tray Slides for 18” x 26, 12” x 20” & 14” x 18” Pans*
◘ Additional Shelves*
◘ 6” High Legs*
◘ Lower Height Casters*
◘ Optional Remote Applications

*Please refer to form number TR35872 for precise kit details. See back page for tray slide versatility chart.

G-SERIES  
2-Section Refrigerator Reach-In  
Self-Contained Solid Door(s)

CONSTRUCTION, HARDWARE, INSULATION  
Cabinet exterior, louver assembly and door(s) are constructed of 20 gauge stainless steel. Cabinet sides (including returns), interior and door liners are constructed of anodized aluminum. The exterior cabinet top, back and bottom are constructed of heavy gauge galvanized steel. A set of four (4) 6” high locking casters are included. Doors are equipped with a gasket protecting, raised metal door pan, cylinder locks, and guaranteed for life self-closing cam-lift hinges with a stay open feature at 120°F. Hinges include a concealed switch to automatically activate the interior LED lighting. Guaranteed for life, metal work flow door handles are mounted horizontally over recess in door which limits protrusion into aisle ways. Gasket profile and durable long life material simplify cleaning and increase overall gasket life. Anti-condensate heaters are located behind each door opening. Both the cabinet and door(s) are insulated with an average of 2” thick high density, non-CFC, 100% foamed in place polyurethane.

SELF-CONTAINED REFRIGERATION SYSTEM  
A top mounted, self-contained, balanced refrigeration system using environmentally friendly, non-flammable R-450A refrigerant is conveniently located behind the one piece louver assembly. It features an easy to clean front facing condenser, thermostatic expansion valve metering device, air-cooled hermetic compressor, large, high humidity evaporator coil located outside the food zone and a top mounted non-electric condensate evaporator. A 9’ cord and plug is provided. Standard operating temperature is 34 to 38°F.

CONTROL  
The easy to use water resistant microprocessor control is supplied standard. It includes a 3-Digit LED Display, and a Fahrenheit or Celsius Temperature Scale Display Capability.

INTERIOR ARRANGEMENTS  
Standard interior arrangements include three (3) epoxy coated steel wire shelves per section, mounted on shelf pins, installed at the factory. Shelves are full-width, and do not have any large gaps between them requiring the use of “bridge” or “junior shelves.” Recommended load limit per shelf should not exceed 225 lbs.

DOMESTIC WARRANTY  
Both a three year parts and labor warranty and an additional two year compressor parts warranty (for a total of five on self-contained models) are provided standard.
