### SAFETY

Sécurité / Seguro

400 lbs/181 kgs weight capacity.  
Capacité 400 lbs / 181 kgs.  
400 lbs / 181 kgs de capacidad.

# SMART. STYLISH. STRONG.

Introducing the Westport Adirondack Chair by Grosfillex – a stylish and luxurious option represents the best of European design combined with American ingenuity. Our research determined the need for a product that—while true to the Adirondack “code”—had a higher seat for both comfort and dignity.

Also important was substantial weight, stackability for off-season storage, zero maintenance requirements and that it came already assembled. We turned it over to our French design team and the result speaks for itself.

Proudly crafted in Pennsylvania, USA, the Westport combines the easy-care, zero maintenance benefits of resin with the durability and comfort found in more expensive materials. We do this by using MPC (Mineral Polymer Composite) -- a high grade polymer formula allowing us to make a superior product with a dramatic wood-like finish. Weighing in at a substantial 22 lbs., the Westport arrives completely assembled, stacks for off-season storage, and is tested to ASTM 1561B.

Black Stainless Steel hardware.
