# Dry It Low

# Liquid Machine Rinse Agent

Rapid Sheeting for Spot-Free Drying For Industrial and Institutional Use Only

Distributed by: Noble Chemical, Inc.

2205 Old Philadelphia Pike Lancaster, PA 17602 1-888-256-6400

# **GENERAL DESCRIPTION**

DRY IT LOW is a concentrated liquid rinse additive which reduces rinse water surface tension, providing rapid sheeting for spot free drying. DRY IT LOW is formulated especially for use in low temperature, energy efficient dishwashers. DRY IT LOW is a highly active surfactant blend that is not only an excellent drying agent, but also aids in detergency during the wash cycle. The excellent sheeting action of DRY IT LOW helps eliminate alkaline and hard water film deposits from flatware, glasses and dishware. It does this by allowing rinse water to drain quickly, before the dissolved solids in the water have an opportunity to precipitate onto the ware.

### **PHYSICAL PROPERTIES:**

Chemical composition Organic, nonionic wetting
agents
Appearance Clear blue liquid
pH7
Specific Gravity0.98(8.23 pounds per gallon)
Wetting Ability Instant
FoamActs as a mild suppressant
Odor Not residual

#### **PACKAGING**

4/1 gal. plastic bottles - 34 lbs. net / 37 lbs. gross 2/2.5 gal. plastic pails - 43 lbs. net / 46 lbs. gross

# **INSTRUCTIONS FOR USE:**

DRY IT LOW is recommended for use at concentrations between a minimum of 150 ppm (1:6,667) and a maximum of 300 ppm (1:3,333). The actual use concentration is determined by the individual operating conditions. Final rinse temperature should be maintained at 140°F and should not exceed 150°F, in any case. Adjust the rinse injector to feed DRY IT LOW at the required concentration to achieve the rapid sheeting of water from the ware.

#### **WARNING**

KEEP OUT OF REACH OF CHILDREN.
DO NOT STORE NEAR OXIDIZING MATERIAL.
HARMFUL IF SWALLOWED. CONTACT WITH SKIN
OR EYES CAN CAUSE SEVERE BURNS.

#### **FIRST AID:**

EXTERNAL: Wash with plenty of water for 15 minutes. If irritation occurs and persists, obtain medical attention. EYES: Flush with water for at least 15 minutes. If irritation persists, obtain medical attention. INHALATION: Remove from exposure. If discomfort occurs and persists, obtain medical attention. INGESTION: Drink water to dilute. Obtain medical advice by phone. DECONTAMINIATION PROCEDURE: Wash with soap and water.
