### Notes:
- A vent hood is not recommended above the NOBLE UH30-E as it does not produce excessive vapors. Always check with the local building code to know what type of ventilation is required for commercial dish machine installations in your area.
- Normal operation of the NOBLE UH30-E generates steam that may escape from the door. Materials such as wood laminate, veneers, etc. are unsuitable for use in areas exposed to dishwasher steam and detergents. Stainless steel or other moisture-resistant shields are recommended for surfaces adjacent to NOBLE UH30-E sides and top.
