• Cold Wall
  Capacity: 150 10 lbs. Bags (approx.)
• Auto Defrost
  Capacity: 140 10 lbs. Bags (approx.)

Standard features:
• Water-tight lock-form seam construction for a stronger and more durable cabinet with all steel construction.
  • Premier quality construction with the straightest edges and minimal foam bleed.
  • ‘Box Frame’ constructed for optimal strength and increased resistance to freight damage.
• Hot-dipped galvanized top-coated steel door with premium fluorocarbon paint system.
• 70% more open air channels than other brands to provide air flow.
• Low temperature sealed condensing units.
• Two-part acrylic polyurethane coating offers mid-range gloss and excellent weather ability. Epoxy primer formulated to have excellent adhesion and corrosion and humidity resistance.
• PVC bottom skid plates for non-marking of floor surfaces.
• Door openings feature high impact vinyl breaker strips to provide better impact resistance and greater durability to handle harsh conditions.
• Drain plug – recessed drain for easier and complete water draining.
• Easily accessible refrigeration service valves.
• Drop-down unit cooler allows ease of service.
• Now featuring electronic controls.
• Packaged with non-marking corner protective V-boards and dust cover for dirt/debris protection.

Options
