OXICLEAN™ Versatile Stain Remover

The unique formula is activated by water, unleashing bubbling oxygen power for effective cleaning when used as directed. It boosts your laundry water pH to improve your detergent's cleaning ability, and its special ingredients are designed to help rinse soils away.

Max Force™ Spray

Clothing stains are common, but you don't always know what they are or how they got there. That's why OxiClean™ Max Force™ Laundry Stain Remover is designed to include four types of stain-fighters to tackle more dried-in stains than other sprays:

- Amylase Enzyme – lifts food stains from fabric
- Solvents/Surfactants – dissolve and trap grease and oil
- Polymers – bind to dirt and soils to suspend and rinse them away
- Protease Enzyme – targets protein stains like grass and blood

OxiClean

Did you know?

Hard Surfaces

OxiClean® Versatile Stain Remover can be used to clean the inside of dishwashers. Dissolve one scoop of OxiClean® Versatile Stain Remover in one gallon of hot water. Wipe down the inside of dishwasher and then run a rinse cycle in the empty dishwasher.

Place $\frac{1}{2}$ to 1 scoop into 1 gallon of warm water and mix well. Using a sponge, mop or cloth, wipe down trash cans, ice chests, linoleum, and other hard surfaces to remove stains and soils. Repeat as necessary. For shiny surfaces, rinse with clean, wet cloth.

Laundry

A scoop of OxiClean® Versatile Stain Remover should be added to every load to boost the power of your detergent and fight stains you didn't know were there. Pretreat or presoak for tough stains.

TOP LOAD LAUNDRY BOOSTER

$\frac{1}{4}$ to $\frac{3}{4}$ scoop

$\frac{1}{4}$ scoop per regular load, $\frac{3}{4}$ scoop per large or heavily soiled load. Begin filling washer with proper temperature water for your load. (See garment care tag.) As with detergent, add OxiClean to the wash water before adding laundry.

HIGH-EFFICIENCY LAUNDRY BOOSTER

$\frac{1}{4}$ to $\frac{3}{4}$ scoop

$\frac{1}{4}$ scoop per regular load, $\frac{3}{4}$ scoop per large or heavily soiled load. Add OxiClean to the empty tub before adding clothes. Do not mix OxiClean powder with liquid HE detergent in the dispenser.

PRE-TREAT STAIN REMOVAL

$\frac{1}{4}$ to $\frac{3}{4}$ scoop

Apply solution to stain. Rub and wait up to 10 minutes. Do not allow to dry on fabric. For laundry, wash as normal with detergent and OxiClean.

PRE-SOAKING

$\frac{1}{4}$ to $\frac{3}{4}$ scoop

Mix $\frac{1}{2}$ to 1 scoop per gallon of water. Add item. Soak for 1 to 6 hours. Remove item. Rinse thoroughly for non-washable fabric or wash as normal with detergent and OxiClean.
