

QuadGrip™ with Smart Check™ Cutting Board

In any operation, visibility and awareness are key to food safety.

The QuadGrip with Smart Check Cutting Boards use an integrated visual indicator to alert operators when it's time to replace a cutting board. Safely change out equipment when cuts and grooves get too deep for thorough cleaning in a conventional dishwasher. The contrasting color allows for ease of identification and the two-piece system makes replacing boards cost effective and simple.

Features

Smart Check Visual Indicator
to alert for board replacement

Frame & Board System
to reduce costs and improve food safety

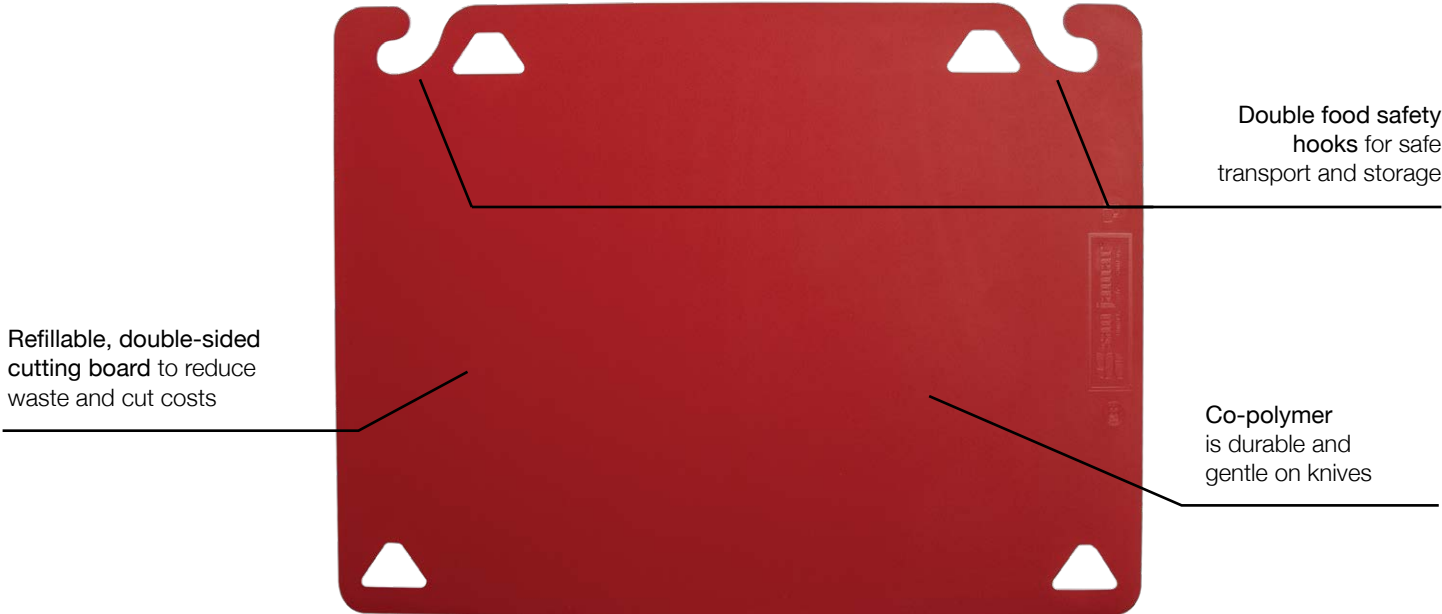

Double Food Safety Hooks
for sanitary transport and storage

Patent Pending
