

CAN RACKS FOR #10 AND #5 CANS

Ideal choice for restaurants, hospitals, retirement communities and schools.

Wherever you need to store large numbers of food cans, these can racks are just the solution you've been looking for. They are designed to hold cans in the most space-efficient manner. Sturdy and mobile, they can be placed in the most accessible location or moved around your storage areas as needed. Since these models can hold both sizes of food cans, you don't need to worry about having multiple racks to accommodate multiple can sizes.

Sturdy Aluminum Design

Made of all-welded, 1 1/2" aluminum tubing, they are built to take a beating in your commercial or institutional environment.

Loads from the Front or Rear

These can racks may be loaded from the front or the rear so your staff can utilize a first in, first out system for stock rotation. This is a great way to make sure that oldest food cans are used first, before they reach their best by dates, so your customers always receive the best-tasting food.

Angled Can Guides

Additionally, it features angled can guides with turned up ends that allow cans to roll to the front of the unit for easy access.

Ships Fully Assembled

These can racks ship assembled so that you can immediately start using it to organize your storage space.
