Improve Health & Wellness

Away-from-home washroom patrons prefer touch-free fixtures and are 50% more likely to wash their hands. AutoFaucet® effortlessly provides reliable, touch-free activation every time to encourage, rather than discourage, frequent use and to eliminate this critical touch point of germs in washrooms.

Sustainable Design

AutoFaucet® delivers water only when needed to save up to 70% water savings and earn LEED credits. AutoFaucet® systems' dry cam-gear technology requires less energy to operate, providing exceptional battery life for over 400,000 hand washes (AC power option available).

World-Class Reliability

Patented dry cam-gear technology controls water flow with world-class reliability. The absence of solenoid valves avoids costly repairs and ensures worry-free operation by keeping electronic components separate from water flow.

OPTIONAL THERMOSTATIC MIXING VALVE
