Hot & Cold Food/Beverages

Built to Outlast and Outperform
Product Guide

Designed to **outlast and outperform**, our line of Insulated Food Carriers (IFCs) are designed for the rigorous demands of the Foodservice industry.

KEEP Your Hot Food, HOT and your Cold Food COLD for hours!

Sterno Watertight™ Liner

No Seams. No Leaks. No Bacteria.

Our antimicrobial, watertight liners are seamless which means there are no holes that sauces or liquids can seep through to form mold and cause odors in the insulation foam.

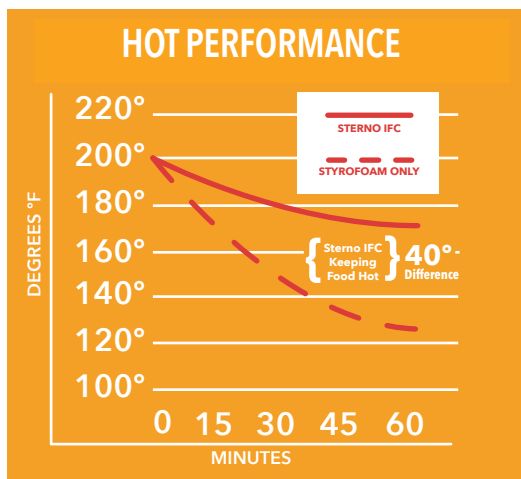

Easy Cleanup

If food or drinks spill, our Sterno Watertight™ liner contains the mess and allows it to be cleaned quickly and easily with soap and warm water.

Super Tough

Constructed to outlast other bags on the market by using superior grade, tear resistant vinyl liner and reinforced stitching in high-abuse areas to prevent rips and tears.

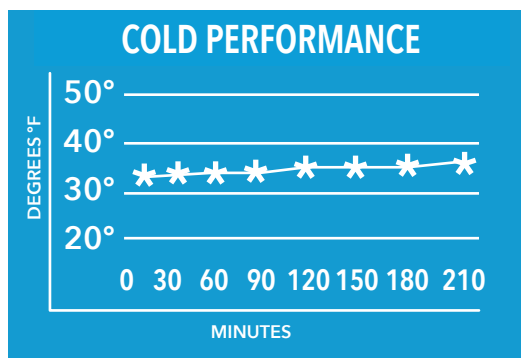

High Performing Insulation Foam

Our multi-layered, dense insulation foam design helps protect food from outside temperatures while maintaining the temperature inside the Insulated Food Carrier.

Keep Your Hot Food, HOT for longer

We've field tested our bags to ensure that heat retention is maximized and maintained throughout the entire delivery cycle.

Keep Your Cold Food, COLD for longer

The ability to maintain a cold temperature is as important as maintaining a hot temperature. Our IFCs do both equally well.
